This Week's Topic:

Cabin Site Tank Rehabilitation

Earlier this year the City of Las Vegas hired D&R tank to drain, clean, inspect and make minor modifications to the 5 million gallon treated water storage tank. The structure of the tank was also inspected and evaluated for potential improvements. While the tank was drained D&R Tank installed a new inlet/outlet pipe inside the tank and replaced the roof vent. A new 12" inlet wall nozzle was installed for a future waterline. The Tank will go thru a major rehabilitation within the next 8 months. The City of Las Vegas acquired funding thru the Drinking Water State Revolving Grant/Loan Fund. This project will cost approximately \$950,000 to rehabilitate the tank inside and out.
