

# Your Friday Water Report

## This Week's Topic:

## Daily Averages for 8/29-9/4

### United World College Sewer Extension

In January 2016, the United World College (UWC) expressed interest in connecting to the City of Las Vegas sanitary sewer system. Based on the configuration of the existing City sanitary sewer facilities in the vicinity of the UWC, the cost effective alternatives that are available to extend the sewer system to the UWC are very limited. There is no existing sewer system at or near the UWC. A meeting between the City and UWC was held to discuss the scope of work and the possible Alternatives. The conclusion of the meeting was the UWC will fund the complete project to construct a new gravity sewer line along Cinder Road from Memorial Middle School to Camino Road. Ground breaking on this project begun on June 8, 2017 and will be completed by October 1, 2017. **Please use extreme caution and expect delays from Cinder Road to Camino Road.**

**Gallinas River Flow** 4.567 Mgd  
 This week in 2016 was 16.320 Mgd  
**Avg. River Diversions** 0.234 Mgd  
 Yr. to date 336.140 Mg\*; year max. 908 Mg  
**Draw from Wells** 0.00 Mgd  
 This week in 2016 was 0.00 Mgd  
**Fresh Water Demand** 1.294 Mgd  
 This week in 2016 was 1.423 Mgd

### As of 9/4/17:

**Bradner Storage** 0.00 Mg  
**Peterson Storage** 59.019 Mg  
**Storrie Lake Storage** 367.967Mg  
**Reservoir Storage** 76.6%  
**Las Vegas Rainfall** 0.11"  
**Snowpack Depth** 0 inches  
**Snowpack Water Equiv.** 0.0 inches  
 This date in 2016 was 0.0 inches

Mgd = Million gal. per day, Mg = million gal

## Did You Know?

It takes about 12 gallons per day to sustain a human (this figure takes into account all uses for water, like drinking, sanitation and food production).
