READY BEFORE YOU NEED US.

Dennis English, Emergency Manager

The San Miguel County/City of Las Vegas Office of Emergency Management has completed a final draft of the San Miguel County, City of Las Vegas, and Village of Pecos, NM "All Hazards Multi-Jurisdictional Mitigation Plan" for public review and comments. [*Click for more info*](#)

The San Miguel County Multi-Jurisdictional Hazard Mitigation Plan is designed to protect people and property from the effects of natural and human-caused hazards. By taking action today, we can reduce the likelihood of injuries, loss of life and damage to our communities. That is what hazard mitigation planning is all about - taking action based on a solid understanding of our vulnerabilities to reduce the impacts of hazards that may strike sometime in the future. In addition to developing a framework for action, the Plan enables participating counties and municipalities to apply for pre and post-disaster mitigation funding that would not otherwise be available. This funding can help local jurisdictions implement identified projects that meet the goals and objectives outlined in the plan.

We prefer that stakeholders not make changes to the original word document so we have provided a comment form to be filled out in order to keep changes from being missed and prevent accidental deletions of any portion of the plan.

The plan and comment form in electronic format can be found at the following link for review and comments: <https://files.secureserver.net/0f9gamh79rTcOW>

There is also a hard copy of the plan for review and comments located at the following libraries:
