

SEWER

On August 16, 2012, the governing body adopted Ordinance #12-14 that changes the sewer rates and allows for subsequent annual increases. City of Las Vegas Municipal Code §340-57 authorizes automatic adjustments to rates and charges through application of the Consumer Price Index (CPI-U) maintained by the US Government. Adjustments shall be authorized by the City Manager after examination of the financial performance of the Utility during the past fiscal year.

The current increase will go into effect in May 2022 and customers will see the changes in their bills in June 2022.

Below is the updated wastewater rate schedule for Municipal Code §340-51 CURRENT RATES in accordance with 340-57 AUTOMATIC ADJUSTMENT TO RATES AND CHARGES

<i>Water Meter Size</i>	<i>Sewer Base Charge</i>	<i>Additional charges per gallon based on Winter Quater Average or current monthly usage, whatever is less</i>
