SUBJECT: ROAD WORK CONSTRUCTION

The City of Las Vegas drinking water supply has been drastically impacted due to flooding caused by the Hermits Peak/Calf Canyon fire burn scar. The wildfire occurred during April 6, 2022 through July 2022. Large amounts of ash sediment is making it impossible for the City to capture additional water into its reservoirs.

Citizens of the City of Las Vegas have now been put on stage 7 water restrictions due to the lack of water that can be diverted into the water dams and treated for drinking purposes.

The City has ordered filtration equipment to help filter water for its citizens at the Storrie Lake location. The equipment is set to arrive on Monday August 15, 2022.

However, the equipment is very heavy and a road needs to be constructed in the area where it will be located. The City does not have the capability or the expertise to do this and it could end up being a large liability to the City.

The City has requested quotes from three different vendors. Unfortunately, the cost is over the \$60,000 threshold which requires a sealed bid approach.

I have been advised of the current situations and as the City's CPO I strongly believe it is in the best interest of the City that they hire Pacheco Construction under Emergency procurement for the construction of the road so that it is ready in time for the delivery of the filtration equipment.

Under normal circumstances I would not allow this approach but the Citizens of Las Vegas are in dire need of water.

STATE OF NEW MEXICO
EMERGENCY DETERMINATION FORM

The emergency procurement method (NMSA 1978, Section 13-1-127) may only be used when there exists a threat to public health, welfare, safety or property requiring procurement under emergency conditions. The existence of the emergency condition creates an immediate and serious need for services, construction or items of tangible personal property that cannot be met through normal procurement methods and the lack of which would seriously threaten:

1. the functioning of government;
2. the preservation or protection of property; or
3. the health or safety of any person.

I. Name of Agency: **City of Las Vegas, NM**

Agency Chief Procurement Officer:

Helen Vigil

Telephone Number: **(505) 454-1401**

II. Name of Contractor:

Address of Contractor:

**Pacheco Construction
and Trucking**

Amount of prospective contract:

\$89,826.96 Term of prospective

contract: **4 days**

III. Please thoroughly list the services (scope of work), construction or items of tangible personal property of the contract: **Construction of road work that will maintain the weight of heavy equipment that will be installed for the new water treatment system (equipment).**

- IV. Provide an explanation for the justification of the procurement including a description of the emergency condition(s) requiring use of emergency procurement and the practicable competition utilized in compliance with NMSA 1978, Section 13-1-127. **Construction of road work that will maintain the weight of heavy equipment that will be installed for the new water treatment system (equipment). This system is being installed due to the recent fire and flood.**
- V. Please describe what measures are being taken to minimize the duration and effect of this particular emergency procurement (for example: is the emergency only in place until a competitive process can be completed, etc.). **Emergency is only in place for the duration of the installation of the new water pre-treatment system.**
- VI. Describe what measures the Agency will take in the future to prevent/mitigate use of an emergency procurement under similar circumstances. **The City of Las Vegas will mitigate the emergency with the maintenance of the new road being constructed.**

EXECUTIVE ORDER 2022-112

DECLARING EMERGENCY IN CITY OF LAS VEGAS DUE TO FLOODING AND LACK OF DRINKING WATER AND AUTHORIZING EMERGENCY FUNDS FOR THE DEPARTMENT OF FINANCE AND ADMINISTRATION

WHEREAS, the City of Las Vegas has been severely impacted by the Hermit's Peak that began on April 6, 2022, and the Calf Canyon Fire that began on April 19, 2022;

WHEREAS, the Hermit's Peak Fire and Calf Canyon Fire have prompted multiple local and State disaster declarations, as well as a major disaster declaration from President Biden;

WHEREAS, the Hermit's Peak Fire and Calf Canyon Fire left a significant burn scar along the Gallinas River watershed, leaving thousands of acres of scorched forest, ash, and fire debris;

WHEREAS, the substantial precipitation that recently occurred caused flooding and large amounts of ash and other fire debris to be deposited into the Gallinas River;

WHEREAS, the City of Las Vegas relies almost exclusively on water from the Gallinas River for its municipal water source, and the large amount of ash and debris has prevented the City from pulling water from the Gallinas River;

WHEREAS, the City is now forced to rely solely on its reservoirs for municipal water, which are currently estimated to contain less than fifty days of stored water at the current consumption rate;

WHEREAS, the large burn scars from the Hermit's Peak Fire and Calf Canyon Fire also present an additional risk of flooding for the City of Las Vegas;

WHEREAS, these events have prompted the City of Las Vegas to issue a local disaster declaration on July 27, 2022;

WHEREAS, the City of Las Vegas has requested aid, assistance, relief programs, and funding from the State of New Mexico;

WHEREAS, this disaster requires immediate action to protect public peace, health, and safety; and

WHEREAS, this disaster is of such magnitude as to be beyond local control and requires the resources of the State of New Mexico to minimize economic or physical harm and to take actions necessary to protect the public health, safety, and welfare.

NOW, THEREFORE, I, Michelle Lujan Grisham, Governor of the State of New Mexico, by virtue of the authority vested in me by the Constitution and the laws of the State of New Mexico do hereby **DECLARE** a state of emergency to exist in the City of Las Vegas due to flooding and lack of drinking water, and **ORDER** and **DIRECT** as follows:

1. The Department of Finance and Administration shall make available emergency financial resources in an amount not to exceed seven hundred and fifty thousand dollars (\$750,000.00) to assist the City of Las Vegas in accordance with NMSA 1978, Sections 12-11-23 to -25, and NMSA 1978, Sections 12-10-14 to -15. The funds shall be expended for the resources and services necessary to avoid or minimize economic or physical harm until the situation becomes stabilized; on a temporary, emergency basis for lodging, sheltering, health care, food, any transportation or shipping necessary to protect lives or public property; or for any other action necessary to protect the public health, safety, welfare, and property. The funds shall be expended in accordance with the policy and procedures of the Department Finance and Administration, as approved by the Governor or her Authorized Representative.

2. The Department of Finance and Administration shall coordinate all requests for assistance and responses to such requests under the authority of and as determined by the Governor and her Authorized Representative. In addition to such other eligibility criteria as may be established by the Governor or her Authorized Representative, applicants requesting financial assistance from the State for necessary action taken in response to the emergency shall be required to demonstrate that the cost of the necessary action exceeds their available resources, as determined based upon criteria developed in conjunction with the State agencies (if any) with financial and budgetary oversight responsibilities for the applicant.

3. The Adjutant General shall order into service any elements of the New Mexico National Guard as are or may be needed to provide military support to civil authorities as needed for this emergency. This action is pursuant to and in accordance with NMSA 1978, Sections 20-1-1 to -8, NMSA 1978, Sections 20-2-1 to -8, and NMSA 1978, Sections 20-4-1 to -14. Such emergency assistance shall be provided during the period of need at the discretion of the Governor or her Authorized Representative.

4. All Cabinet Departments and agencies under gubernatorial control shall provide any assistance that may be required by the Department of Finance and Administration.

I FURTHER ORDER and DIRECT as follows:

1. This Order supersedes any previous orders, proclamations, or directives to the extent they are in conflict.

2. This Order shall take effect immediately and shall remain in effect until renewed, modified, or rescinded.

Mayor Louie A. Trujillo

DECLARATION OF EMERGENCY

Whereas, on April 6, 2022, the U.S. Forest Service initiated a prescribed burn on federal land in the Santa Fe National Forest in San Miguel County, New Mexico, when erratic winds were prevalent in the area that was also suffering from severe drought after many years of insufficient precipitation;

Whereas, on April 12, 2022, said prescribed burn, which became known as the “Hermit’s Peak Fire”, exceeded the containment capabilities of the U.S. Forest Service, was reclassified as a wildland burn, and spread to other federal and non-federal land, quickly becoming characterized as a wildfire;

Whereas, on April 19, 2022, the Calf Canyon Fire, also in San Miguel County, New Mexico, began burning on federal land;

Whereas, on April 27, 2022, the Hermit’s Peak Fire and the Calf Canyon Fire merged;

Whereas, by May 2, 2022, the merged fire had grown in size and caused evacuations in multiple villages and communities in San Miguel County and Mora County, including San Miguel county jail, the New Mexico Behavioral Health Institute, the United World College, and New Mexico Highlands University’

Whereas, on May 4, 2022, President Biden issued a major disaster declaration for the counties of Colfax, Mora, and San Miguel, New Mexico;

Whereas, on June 3, 2022, New Mexico governor Michelle Lujan Grisham signed and issued Executive Order 2022-077, declaring an emergency in San Miguel County, New Mexico due to ash and fire debris resulting from the Cooks, Hermit’s Peak and Calf Canyon fires;

Whereas, the merged fire resulted in the loss of federal, state, local, tribal and private property, including thousands of acres of the watershed for the Gallinas River, which is the primary source of municipal water for the City and surrounding areas;

Whereas, the burn scar of the Gallinas River watershed has resulted in thousands of acres of scorched forest, flooding, ash, and fire debris;

Whereas, with each precipitation event in the Gallinas River watershed, large amounts of ash and other fire-related debris, including trees and rocks, are deposited into the Gallinas River;

Whereas, the City relies almost exclusively on the water from the Gallinas River for its municipal water source;

Mayor Louie A. Trujillo

Whereas, the large amounts of ash and turbidity in the Gallinas River have prevented the City from pulling water off the Gallinas River, as the City's municipal water treatment facility is not able to treat water containing such large amounts of ash and turbidity;

Whereas, the City is currently relying solely on its reservoirs, which currently contain less than fifty (50) days of stored water at the current City consumption rate;

Whereas, the burn scar also creates the likelihood of injurious flooding to the Gallinas River, and all improvements and infrastructure which are currently located within the Gallinas River flood zone;

Whereas, the City's Mayor has determined that it is in the best interest of the City and the public health, safety and welfare of the City's residents and visitors to issue this declaration of emergency; and

Whereas, pursuant to Section 3.02(C) of the City Charter, the Mayor is recognized as the head of the City government for purposes of responding to civil emergencies.

NOW THEREFORE, I, Louie Trujillo, Mayor of the City of Las Vegas, New Mexico, on this 27th day of July, 2022, due to the safety and health emergencies created by recent wildfires, and ongoing injury and damage from flooding, ash, and fire debris caused by the wildfires, and the increased risk of water supply, water quality and other water-related issues for the foreseeable future, in response to the aforementioned civil emergency hereby declare a state of emergency to exist in the City of Las Vegas, New Mexico, and the aforementioned recitals are incorporated herein by reference.

Mayor Louie Trujillo

Water Conservation Awareness Update

August 12, 2022

There has been a substantial increase in sediment runoff due to the fire & monsoon rains. Sediment is greatly impacting the river water which we use to treat to drinking water standards. High levels of sediment in the Gallinas River have increased drastically over normal flows.

Currently in Stage 7 Water Restrictions

Stored Raw (untreated) Water Volume

Current treatable volume in Bradner is <63 MG. This water was in Bradner prior to the fire and is currently treatable.

Current Volume in Storrie Lake is 155.365 MG. Storrie Lake water quality has been impacted by sediment flow entering Storrie Lake, altering the level of turbidity & volume of total suspended solids and therefore is currently not treatable

Stored Treated Water Volume

7.4 MG

Current days of water available

40 Days

City has obtained a pretreatment system to assist in removing the suspended solids in city water stored in Storrie Lake, to ensure the water is treatable with our primary treatment system.
