

CITY OF LAS VEGAS

Sign Permit Packet

CITY OF LAS VEGAS SIGN **REQUIREMENTS:**

HEIGHT LIMITATIONS OF SIGNS:

- **All signs shall not be higher than 20' (feet), unless owner goes through variance for approval.**

- **All free-standing signs shall have a limitation of 100 square feet in size.**

- **All signs attached to the building shall have a limitation of 500 square feet.**

PLANS REQUIRED FOR PLACEMENT OF SIGN:

- 1. Site Plan: a bird's eye view drawing or a survey showing all buildings, streets, alleys, and an arrow showing where the sign will be placed on the site.**
- 2. A drawing of the sign (how it will look), with the size of the sign and material used for the sign.**
- 3. Height of the sign from the ground up. If the sign will be in the ground then you will need a footing plan (how deep, and how wide the concrete will go into the ground).**
- 4. Explain on the plan how sign will be attached to building or poles, such as what size of screws, nails, etc. will be used.**
